ITW EAE opens new Semiconductor Technology Center

Lakeville, Minnesota, September 6, 2023 – ITW EAE opens new Semiconductor Technology Center, located at 14th room, 6th Floor, No. 6, Zhongsi Road, Qianzhen District, Kaohsiung City, Taiwan. This new center will be a key and efficient resource facilitating collaborations around equipment demonstrations, technology training and co-development of Semiconductor packaging solutions.

By offering equipment demonstrations and comprehensive technology training, the center will strive to enhance the knowledge and expertise of industry professionals. ITW EAEs objective of the center is to provide a platform where customers can engage in teamwork with our technical experts to address their challenges and work towards solving their high value problems. This initiative is expected to accelerate advancements in semiconductor technology and offer customers tailored solutions that meet their specific requirements.

ITW EAE, a division of Illinois Tool Works, Inc., is the global leader in process knowledge, services and manufacture of capital equipment used in the printed circuit board assembly and semiconductor industries. The group brings together the world's leading brands of electronics assembly equipment: MPM Printers, Camalot Dispensers, Electrovert Cleaners and Soldering Solutions, Vitronics Soltec Soldering Solutions and Despatch Thermal Processing Technology.
