ITW EAE Extends Agreement with Sincotron to Represent Vitronics Soltec Products in Nordic Region

Lakeville, Minnesota, October 19, 2021 - ITW EAE announces a new extended partnership agreement with Sincotron to represent and distribute Vitronics Soltec soldering equipment in Norway, Sweden, Finland, Latvia, Estonia, and Lithuania beginning November 1, 2021. This agreement is an expansion of Sincotron's representation of ITW EAE's product line which already included MPM printers, Camalot dispensers, and Electrovert soldering and cleaning equipment.

"Sincotron has provided superior representation for MPM, Camalot and Electrovert in the Nordic region," said Frank Van Erp, EMEA Sales Director for ITW EAE. "We are very fortunate to have this first-class, technically experienced team represent the full range of ITW EAE electronics assembly equipment. Sincotron's sales team is one of the best in the business and can be counted on to serve all of our customers well."

"Our suppliers are all well renowned and carefully hand-picked professionals in the field of electronics," said Pehr Nordman, Managing Director of Sincotron. "Vitronics Soltec is a pioneer in soldering technology with a reputation for cutting edge technology. We look forward to adding this product line to our line of high-quality products."

For over 50 years Sincotron operations have been based on reliability, stability, and most of all on the long-term relationships with customers and suppliers. They offer clients a wide selection of electronics products varying from production materials, tools, and individual machines to entire production lines. Sincotron works closely with customers to understand their operations to ensure they get products that perfectly fit their needs. They also offer excellent product training to ensure that clients get the most use from the products they buy.
