

DISPENSING BASICS COURSE Online Training Course

Course ID: SP127

ITW EAE Learning

Our eLearning courses are specifically designed to provide engaging and interactive learning opportunities for operators, technicians, engineers and/or managers to be introduced to or build upon the knowledge and skills needed to successfully operate, maintain, program, or troubleshoot their CAM Prodigy equipment. Online courses are designed to cover beginning and intermediate competencies and should be mastered before considering more advanced, in person training. Courses require a reliable internet connection and can be viewed at your own pace on your phone, tablet, or pc laptop.

Course Overview:

In this module, you will get an introduction to dispensing basics. You will learn where dispensing is used, and learn about the four keys of dispensing, as well as additional components in dispensers that are important to the dispensing process.

Who Should Take this Course:

Anyone who has an interest in dispensing or plans to be in the profession.

Time Requirements: 30-45 minutes

Assessments: Quiz

Learning Objectives:

- Define dispensing in basic terms.
- Distinguish the role of dispensing in the SMT process
- List the four keys of dispensing.
- Describe the role of each key in dispensing.
- Explain what a printed circuit board is.
- Identify three commonly used materials in dispensing.
- Differentiate between types of needles and nozzles.
- Describe how three commonly used dispensing mediums dispense material.
