

**Electrovert AQUASTORM****AQUASTORM BASIC  
OPERATIONS COURSE**  
Online Training Course

Course ID: SP160

**ITW EAE Learning**

Our eLearning courses are specifically designed to provide engaging and interactive learning opportunities for operators, technicians, engineers and/or managers to be introduced to or build upon the knowledge and skills needed to successfully operate, maintain, program, or troubleshoot their Electrovert Aquastorm cleaner. Online courses are designed to cover beginning and intermediate competencies and should be mastered before considering more advanced, in person training. Courses require a reliable internet connection and can be viewed at your own pace on your phone, tablet, or pc laptop.

**Course Overview:**

In this module, you will learn about Aquastorm cleaner basic operations, including start up and shut down, production runs, and how to recognize and respond to alarms.

**Who Should Take this Course:** Anyone who is interested in or intends to operate an Aquastorm cleaner.

**Prerequisites:**

- EVT Aquastorm Safety Information & Guidelines (SP158).
- EVT Aquastorm Machine Overview (SP159).

**Time Requirements:** 1 hour**Assessments:** Quiz**Learning Objectives:**

- Describe and use the main parts of the software.
- Access features and functions using the toolbar menu (including online Help).
- Name and perform start up and shut down steps, excluding daily preventative maintenance.
- Start and monitor an Aquastorm production run (including product loading and unloading).
- Describe the location of E-stop buttons and explain when and how to use them.
- Explain the alarm indicator status options (red, yellow, green).
- Explain the different alarm actions (ignore, warning, soft-stop, and hard-stop).
- Explain the concepts of alarm bands and process bands.
- Know how to respond to the eight common alarms presented in this lesson.
- Recognize when to escalate issues to your supervisor and/or maintenance.
