

EVT CLEANING BASICS COURSE

Online Training Course

Course ID: GEN-SP-E-6006

ITW EAE Learning

Our eLearning courses are specifically designed to provide engaging and interactive learning opportunities for operators, technicians, engineers and/or managers to be introduced to or build upon the knowledge and skills needed to successfully operate, maintain, program, or troubleshoot their Vitronics Soltec Centurion reflow oven. Online courses are designed to cover beginning and intermediate competencies and should be mastered before considering more advanced, in person training. Courses require a reliable internet connection and can be viewed at your own pace on your phone, tablet, or pc laptop.

Course Overview:

In this module, you will learn about cleaning basics and the importance of cleaning electrical products. This includes how and when products are cleaned as well as safety, health, and environmental considerations related to cleaning.

Who Should Take this Course: Anyone who wants to learn more about cleaning of electrical products, regardless of whether they have direct interaction with EVT Aquastorm cleaning equipment or not.

Prerequisites: None

Time Requirements: 30-40 minutes **Assessments:** Quiz **Languages:** English

Learning Objectives:

- Explain what products are cleaned and why they are cleaned.
- Name the contaminants that are removed during cleaning.
- Name the cleaning options (solutions and equipment) for removing different types of contaminants.
- Describe the factors considered in designing cleaning processes.
- Explain how cleanliness is measured or assessed.
- Explain the safety, health, and environmental factors related to cleaning.
